3M™ Versaflo™ Powered Air Turbo TR-600

Description

The 3M™ Versaflo™ Powered Air Turbo TR-600 is a belt-mounted air purifying device. When combined with one of the 3M approved headtops, it forms a power-assisted system for respiratory protection against particles, nuisance odours (where applicable) and gases and vapours. The TR-600 Powered Air Turbo can be used with the following 3M headtops: S-Series, M-Series, HT-622/HT-629/HT-639, HT-707/HT-748/HT-749 and SG9100 Air and SG9100 FX Air.

- Three user selectable flow rates for improved comfort
- Controlled airflow delivers steady flow as battery discharges or filter loads with particulates
- Display shows battery charge status and particulate loading status during use
- No user calibration of the turbo is required
- Electronic audible, visual and vibratory alarm in case of low battery and/or low air flow
- Simple, intuitive, easy to use two-button operation
- Six filter options available:
  - P
  - P plus nuisance level* organic vapours and acid gas which also offers protection against Hydrogen Fluoride up to 10 x Threshold Limit Value
  - A1P
  - ABE1P
  - A2P
  - ABE2K1HgP
  - Lightweight lithium ion battery with LED to indicate charge status
  - Two belt options:
  - Easy-clean belt with smooth surfaces allows easy, thorough cleaning
  - High durability belt for hot work or rugged environments provides greater durability and spark/flame resistance
  - Suitable for shower decontamination (IP54) when using filter cover and temporary submersion (IP67) when fitted with cleaning plugs
