Product's highlights & user's benefits

	Split leather	Reinforced abrasion resistance Suitable for heavy work
	Polyurethane coating	Very soft and breathable material bringing comfort and dexterity Good abrasion and tear resistance
10 cm		
	Safety assured thanks to the combination of cut resistant and leather reinforcement threads. Great resistance for intensive work all day!	
	We started from the need of operators in the automotive industry to combine strength, dexterity and finesse of touch. With a particularly complex technical challenge: to develop the shape of the piece of leather that must both fully respect the anatomy of the hand and the technicality of the fibre of a cut protection glove. Also, we are proud to present one of the most best current technical advances in the field of the protection glove. Laetitia Guillerm, Hand Protection Product Expert	
	1- Anatomical design to maintain a high level of dexterity 2- Slit for increased comfort without compromise	
D	Cut level D
