EXCELSYS CS1000 SERIES

FANLESS, 1U, HIGH EFFICIENCY 1000 W SINGLE OUTPUT POWER SUPPLIES

Advanced Energy's CS1000, part of our Excelsys product line, is the latest addition to our fanless range of power supplies. The single output CS1000 delivers an incredible convection-cooled 1000 W in an open-frame U-channel form factor, eliminating acoustic noise detrimental to scientific and medical applications, and is ideal for applications sensitive to vibration or where fan cooling is not available.

With an extensive features set including PMBus™, digital control/ communications and analog control, the CS1000 delivers industry leading levels of performance, efficiency, and reliability.

PRODUCT HIGHLIGHTS

No Fan Featured
- 1000 W with 100% natural convection cooling
- No base plate needed
- No acoustic noise or vibrations

Reliability
- High input surge protection — 4 kV line to PE for harsh environments
- Reverse energy protection — no blocking diodes required
- User selectable (5 V / 12 V) 24 W always ON auxiliary power output
- N+1 Redundancy Ready
- Can be Paralleled for higher power
- Optional Low Leakage (<150 uA)
- Safety approved to 5000 m altitude
- Programmable start-up state (Default ON or Default OFF)
- > 94% efficiency
- Five-year warranty

Flexibility
- Analog and digital management — PMBus™ monitoring and control capability
- Mounting options — base/side and DIN-Rail mounting

TYPICAL APPLICATIONS

Medical
- Clinical diagnostic equipment, medical lasers, dialysis equipment, radiological imaging, clinical chemistry

Industrial
- Test and measurement, industrial machines, automation equipment, printing, telecommunications, audio equipment

Hi Rel
- Harsh industrial electronics, radar (naval- and ground-based), communications, test and measurement

AT A GLANCE

	CS10S	CS10M
Power		
	1000 W	1000 W
Output Voltage		
	24 V, 48 V	

Cooling

No fan featured, convection-cooled

Parameters

262 x 127 x 39.1 mm
(10.3 x 5 x 1.5 in)

Certifications

Medical
- IEC60601-1 3rd edition,
- 2 MOPP
- Dual fused

Industrial
- IEC62368-1
- ISO9001:2015
- SEMI F47[1]

ABOUT ADVANCED ENERGY

Advanced Energy (AE) has devoted more than three decades to perfecting power for its global customers. AE designs and manufactures highly engineered, precision power conversion, measurement and control solutions for mission-critical applications and processes.

AE's power solutions enable customer innovation in complex semiconductor and industrial thin film plasma manufacturing processes, demanding high and low voltage applications, and temperature-critical thermal processes.

With deep applications know-how and responsive service and support across the globe, AE builds collaborative partnerships to meet rapid technological developments, propel growth for its customers and power the future of technology.
