Amp Clamp, Maximum Cable Diameter 19 mm, Cat IV 600V AC/DC 5ma−30a

2 Year Limited Warranty

Country of Manufacture:

China

For measuring current without contact.Measurement of AC / DC: 5mA − 30A.Measurement of low alternating current AC and continuous current DC.Diameters of the jaws: 19mm.Max. permitted cable diameter: 19mm.Measurement category: IV − 600 volts.Use with most multimeters.Manual adjustment of the zero point.Excellent for the multimeters of FACOM 711, 711A, 714 and 714A.Extra low measuring range.Can be used for leakage current detection automotive maintenance
