kühlen schützen verbinden

Data sheet Product MST 220

Thermal interface material / Fixing material / Mounting material>Mounting material for single semiconductors and heatsinks>Mounting kits for insulation of power transistors
for semiconductor-design TO 220

Features

for transistor:	**TO 220**
version:	**with mica wafer GS 220**
material:	**polysulphone, GF reinforced**
temperature range:	**-70°C... +180°C (260°C/5 s)**
contents of delivery:	**1 mica wafer, 1 tin-plated solder lug, 1 cheese head screw, nickel-plated, 1 screw nut M3 nickel-plated**
