Mini-Com® 86mm X 86mm Sloped Faceplates

PANDUIT®

SPECIFICATION SHEET

specifications

86mm x 86mm shuttered faceplates shall be available in 2- and 4-port configurations with and without spring-shuttered doors that protect connectors from dust and debris when not in use. Faceplates shall have a sloped orientation and include label pockets that enable proper port identification. All faceplates shall accept Mini-Com® Modules for copper, fiber and audio/video installations.

key features and benefits

Modular	Mini-Com® Modules snap in and out for easy moves, adds and changes
Spring shuttered doors:	Will ensure doors remain closed when not in used
Concealed screws	Select faceplates include plugs to conceal the mounting screws
Labeling capability	Select faceplates include label pocket that allow ports to be properly identified; adhesive labeling options available for faceplates without label pocket
Sloped design:	Allows proper bend radius control

applications

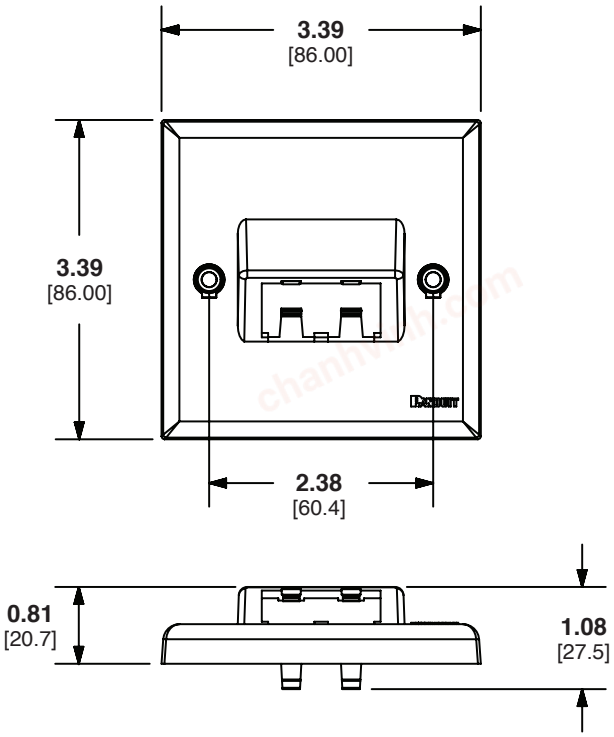

Panduit® Mini-Com® Faceplates offer an aesthetic solution that complements work areas while offering various features that enhance functionality. Offering modularity for installation flexibility, Mini-Com® Faceplates support all Mini-Com® Copper, Fiber, and Audio/Video applications.

As part of a global workstation outlet solution offered by Panduit, Mini-Com® 86mm x 86mm Faceplates mount to select industry standard wall boxes. Mini-Com® 86mm x 86mm Shuttered Faceplates utilize spring shuttered doors that remain closed when connections are not in use to protect connectors from dust and debris. Select faceplates include built-in label pocket to enable easier identification for lower cost of maintenance. Faceplates without label pocket can be identified with adhesive labeling.
