RS PRO Connecting Component, Sliding Block Type, M8 Thread

RS Stock No.: 2768199

Features

- Sliding block for reliable absorption of high forces
- Sliding block profile for self-assembly of individual fastening elements
- The spring assists with the assembly and positioning of the sliding block and swivel-in sliding block

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Connecting Components

Product Description

Secure your loads to your frame effortlessly with the RS PRO connecting component. This versatile component not only allows you to attach loads but also enables you to connect two frames seamlessly. Its precision design ensures a perfect fit within a 10mm groove, simplifying the assembly process. Featuring an integrated M8 connection, you can securely fasten a bolt to it, ensuring a stable and dependable hold. Crafted from robust galvanized steel, this unit is built to withstand impacts and resist corrosion, making it a trustworthy choice for your support needs.

- *Handles loads up to 6000N in heavy-duty structural systems*
- *Compact dimensions of 10.5 (H) x 20mm (W) to fit in standard T-slots*
- *Suitable for Agricultural equipment, Packaging plants and Metalworking*

General Specifications

Product Family	RS Structural System
Product System	
Structural Element Type	Fixing & Connecting Element
Connector Type	Sliding Block
Material	Steel
Finish	Galvanised
Applications	It's mostly used for accessories or connections of other profiles

Mechanical Specifications

Fits Groove Size	Slot 10mm
Thread Size	M8
Length	20mm
Fits Strut Profile	40 mm, 45 mm, 50 mm, 60 mm

Protection Category

ESD-capable	No
