M3 Plain Nylon Tap Washer, 0.8mm Thickness

RS Stock No.: 525-739

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Tap Washers

Product Description

RS PRO range of plain, white, nylon tap sealing washers in sizes M2 to M12 which are designed to distribute the force of the screw head of a screw or nut on a larger surface. These nylon washers provide an excellent inexpensive solution between gland and equipment with electrical insulation and good chemical resistance. They are also non-abrasive and lightweight in comparison to metallic washers and absorb shock and noise better resulting in less noise when used in equipment

Washer options include the following sizes:
528-154 - M2
528-160 - M2.5
525-739 - M3
525-745 - M4
525-751 - M5
528-176 - M6
280-521 - M8
280-537 - M10
280-543 - M12

General Specifications
