RS PRO Plier Crimping Tool for Insulated Terminal

RS Stock No.: 533-774

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Crimp Tools

Product Description

A ratchet crimp tool from RS Pro, designed to be used with insulated terminals. This handy tool has a plier action for wire stripping and cutting plus clearly defined colour markings letting you know which area to choose. Supports wire size range of 22 to 10 AWG and has a ratchet incorporated into the design present to release when 35-45 lb is applied-approx. 1 2/4 in from the end of the handles.
