RS Stock No.: 534-806

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Crimp Tools

Product Description

RS Pro offers this 4 in 1 application crimp tool, a quality hand tool for crimping, wire stripping, wire cutting and bolt cutting. This hand tool will not only save you time but your work will be presented in a professional manner which makes it the ideal choice for professionals and DIY enthusiast. The crimp application of the tool is simple it connects 2 pieces of material together by compression typically a wire and a connector terminal. The wire stripper application is a joy to use, just slip the wire through the appropriate channel, squeeze and slide the outer sheath off to expose the wire. A great feature of this crimp tool is the capacity to non-insulated connectors like copper tubes and open end terminals. It's simply a case of preparing the wire, attaching the terminal and squeezing to make the union. And finally a bolt cutter, this application is sometimes overlooked but if you need to trim a bolt simply screw the bolt into the hole and squeeze handle for a precise cut.

General Specifications

Crimp Tool Type	Plier
Crimp Connector Type	Crimp Terminal
Applications	Maintenance & repair, Electrical Installations, Cable assemblies

Mechanical Specifications

Wire stripping capacity	0.75mm to 6mm
Wire cutter	1.2mm to 6mm
