Spill Control Equipment

Product Description

RS PRO Oil Only absorbent pads are designed for effective clean up and absorption of hydrocarbon fluids ONLY , such as oils and fuels. The pads are perforated in the middle allowing the user to tear off smaller sections when needed. The pads feature low lint layer on one side, which extends their application to wiping tools and equipment. The heavy weight version is designed for medium to large spills. It's recommended to use light weight version for smaller spills and for wiping surfaces.
