Crimp Tools

RS Pro crimp tool, designed for crimping wire-end bootlace ferrules with plastic collars having cross-sections from 0.5 mm2 to 16 mm2.

Long handles produce a reliable, gas-free crimp connection with minimal hand pressure.

A plier shape design and superb comfort in both hands deliver the perfect crimp every time.

Used in maintenance and repair, electrical installations and cables assemblies.

Ideal for:

- Improving connection reliability on circuit breakers and control panels.
- Preventing multiple core wires from splitting when using screw terminals.
