Features

- Fool proof ratchet feature ensures a perfect crimp.
- Ratchet release lever to remove any partially crimped contacts.
- Precision-machined jaws ensure accuracy.
- Compound-lever action multiplies hand force by 10 for less crimping effort.
- Jaws clearly marked to ensure correct wire-size insertion.
- Jaws hardened to HRC 57 for durability.
- Chemically blackened jaws and handles, with soft plastic grips for added comfort.

RS PRO Crimping Tool for ZIF Contacts 30 to 18 AWG

RS Stock No.: 821-611

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Crimp Tools

This RS PRO crimp tool has a locator on the tool that positions contacts exactly for ease of use.

A contact extraction tool is available for servicing connectors during maintenance and modifications. The operating instructions are included with both tools.

Ratchet controlled for quality to ensure the crimp is firmly completed before the handles release. Compound-lever action for one-handed operation.

Designed for use by manufacturers and engineers working with zero insertion force (ZIF) type, high pin count connectors. This tool supports a wire size of 38 (0) to 18 AWG.

Typically used when seeking high-performance, multiple-wire power and signal connectors in:

- Medical equipment.
- Industrial equipment.
- Test and measurement equipment.
-

General Specifications
