Cutters

Features

- Oval, Tapered, Standard, Angled & Maxi Micro-Shear Head options
- Strong and robust
- Size and shape reflect the latest advances in enhanced ergonomics
- Cutting edges are ultra-durable, the range covers 55-58 RC

Handles

- Ergonomic
- User-friendly
- Rounded for maximum operator comfort
- A soft comfortable gripping surface that provides superior operator comfort
- Easier to pick it up
- Anti-slip rubber surface
- Bi-component ESD-safe material prevents electrostatic discharge

RS PRO Cutters

RS Stock No.: 8472951

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Cutters

Product Description

EX2175 is a maxi-shear flush cutter with enough toughness to cut harnesses and cables, and the precision to cut material with less than 1-millimeter thickness or to work in high density areas. Its shears employ a unique technology to carry out a clean and smooth cut. Providing this cutter with anti-shock shear cut features, in fact, this system greatly reduces mechanical shock to the component and requires the operator less effort to perform the cut. The shears are equipped with an ESD Ergo-tek handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharges.

General Specifications

Category	Micro-shears
Model Number	EX2175
Country of origin	United States
Head shape	Shear
Size/Type	Maxi

Electrical Specifications

ESD Safe	yes

Mechanical Specifications

Overall Length	150.0 (mm)
Material	Carbon Steel
Handle Material	Thermoplastic Elastomer + PP compound
Cutting Edges	Flush
Cutting Capacity Soft Wire	2.00 (mm)
Cutting Capacity Soft Wire	12 (AWG)
Product Height	13.0 (mm)
Product Width	53.0 (mm)
Weight	85.0 (g)
