RS Stock No.: 864-0805

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Cutters

Product Description

RS PRO professional 5 inch ESD safe Side Cutters which are constructed from high carbon steel for strength and durability. These cutters have been designed to cut copper wire below 1.6mm in diameter and are fully ESD compliant for safe use on sensitive electronic components. They have a spring mechanism which opens the handles automatically making it easier to use one-handed. These side cutters are an excellent hand tool for electricians to add to their tool kit and ideal for both electrical and industrial applications.

General Specifications

Type	Electronic Cutters
