Chemsol HG Lite

Jacket with hood and elasticated wrists

Chemsol HG Lite garments are crafted from a lightweight 305gm² PVC/PU coated Polyester (PE) fabric and feature an anti-bacterial coating, offering durable chemical protection and reliable defense against the demands of washdown processes in the food industry.

KEY FEATURES

- Ring-pull zip for easy donning and doffing when wearing gloves
- Double storm facing velcro closure for increased protection
- Elasticated wrists ensure a snug and secure fit
- Elasticated drawcord hood for easy adjustment
- Fabric is treated with an anti-bacterial finish
- Garment can be reused if not contaminated or damaged
- Pair with either the HG Lite Bib 'n' Brace or Trousers for full body protection

COLOUR AVAILABLE

Royal Blue

STORAGE AND MAINTENANCE

We recommend storing Chemsol HG Lite garments in their original packaging, away from UV sources. After use, please follow the care instructions provided on the label. To remove any contamination, rinse the Chemsol HG Lite clothing with cold water and allow it to drip dry in a shaded area, away from UV sources. It is advisable to store Chemsol HG Lite clothing in a cool, dry, and clean environment.

NOTE: For hygiene purposes, it is recommended that the garment be worn by the same individual. **Fabric is a Biocidal Treated Article** - Fabric is treated with anti-bacterial, (Active Ingredient: Zinc Pyrithione), with the sole purpose of controlling organisms harmful to the treated article/fabric itself.

CHEMICAL RESISTANCE DATA

For chemical permeation data, please contact our sales department at **sales@globusgroup.com.**
