1. Introduction

The Taoglas MMB.A.MA85X is a robust magnetic mount bracket, designed for secure installation of the Colosseum MA85x Series where magnetic mounting is the preferred method of mounting the antenna. All Colosseum MA85x Series of products can be used with this bracket allowing it to be mounted on a flat, magnetic surface. The magnetic base is manufactured from ASA with super strong neodymium magnets for a simple alternative to permanent mounting. It is available in both Black and White.
