tesa® 4288

Product Information

Standard tensilised non-staining strapping tape

Product Description

tesa® 4288 PV10 is a conventional strapping tape with tensilized polypropylene backing. The rubber adhesive system provides high initial tack to both polar and non-polar surfaces. The mono-oriented polypropylene backing exhibits high conformability, good tensile strength, and low elongation. This allows high performance in medium-duty bundling, palletizing, and coil tabbing applications. With effortless dispensing, our tape accommodates both manual and automatic operations, making it the go-to choice for streamlined packaging processes.

Product Features

- high tensile strength
- low elongation
- residue-free removability

Application Fields

- temporary fixation
- medium-duty palletizing & reinforcement

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

Backing	MOPP	Total thickness	114 µm
Type of adhesive	synthetic rubber	Color	black

Properties/Performance Values

Elongation at break	35 %	No discoloration	yes
Tensile strength	300 N/cm	Residue-free removability	yes

Adhesion to Values

Steel	6 N/cm
