UNIGLOVES® NITREX

Features

- Featuring Unigloves NitreGuard Technology
- 13 gauge seamless nylon liner with with HPPE and dual core steel
- Cut resistant level F
- PU palm coating
- Excellent abrasion and tear properties
- Ideal for dry environments

Benefits

- Unigloves NitreGuard Technology is awarded to gloves achieving a high-performance in the straight blade cut test
- Medium weight seamless nylon liner with HPPE and steel is breathable but still delivers maximum cut protection. At the same time providing good dexterity and flex to reduce hand fatigue
- Protects to the maximum EN ISO cut level F (≥30 N), ideal for use in areas with a high level of cut hazards
- The breathable PU palm coating is comfortable to wear
- Maximum abrasion and tear offers ultimate protection in use and increases the life of the glove
- Excellent dry grip giving enhanced dexterity for close work where cut hazards are a risk

Sectors

- Metal works
- Assembly
- Automotive
- Glass Manufacturing
- Bottling
- Steel Fabrication
- Construction
- Utility
- Maintenance
- Recycling
