UNIGLOVES® NITREX

Features

- Featuring Unigloves NitreGrip Technology
- 13 gauge seamless nylon liner with HPPE and encapsulated glass fibre
- Cut resistant level C
- Sandy nitrile palm coating
- Palm padding
- Extensive back of hand TPE protection
- Hook and loop wrist
- Reinforced thumb crotch

Benefits

- Unigloves NitreGrip Technology is a new, advanced surface treatment that provides an assured grip when working in dry, wet or oily conditions. The technology reduces the force needed to grip, reducing hand fatigue
- Medium weight seamless, breathable, nylon liner with HPPE and encapsulated glass fibre is breathable and ideal for use in areas where cut protection is required
- EN ISO cut level C (≥10N & <15N) designed to protect against high level cut hazards
- Sandy nitrile palm coating offers maximum abrasion and tear protection whilst providing breathability to the back of the hand
- Padding in the palm area helps cushions the heel area of the hand
- TPE is lightweight and weather resistant. Acting like a rubber barrier, the TPE helps absorb knocks and bumps to the back of the hand and fingers
- Hook and loop fastening on the wrist offers a better, secure fit
- The reinforced thumb crotch offers increased protection when handling ropes and abrasive material and increases the life of the glove

NitreGrip® Technology
